### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Royal W. Craig on Monday June 20, 2005.

The application has been amended as follows:

A] In claim 13 line 2, "claim 1" has been replaced with --claim 5--.

B] Claim 14 has been cancelled.

2. The following is an examiner's statement of reasons for allowance:

Claim 1 has been found to be allowable over the prior art of record because the prior art fails to teach or suggest in a vertical coal pulverizer having a discharge turret and plurality of pulverized coal outlet pipes, a plurality of adjustable flow control elements positioned within the discharge turret of the pulverizer, each of the plurality of flow control elements corresponding to one of the plurality of outlet pipes, a corresponding plurality of adjustment mechanisms for each of the plurality of flow control elements for adjusting the position of the flow control element relative to the corresponding outlet pipe, in combination with the remaining limitations of the claim.

Claim 15 has been found to be allowable over the prior art of record because the prior art fails to teach or suggest in a vertical coal pulverizer a method comprising the steps of: compensating for imbalances in the pulverized coal flow into the outlet pipes

Art Unit: 3725

by positioning flow control elements corresponding to each outlet pipe a predetermined distance upstream from the outlet pipes and selectively adjusting the individual flow elements on-line in order to alter the rate of pulverized coal flow into the corresponding outlet pipes, in combination with the remaining limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
